TII Quick Guide To: Facebook Search Strings

Every Facebook account has its own unique identity number. Shown below are the 'Top 10' most useful URL-based search strings that can be used to find new Facebook results. For each search string, enter either the email (for #1) or the unique Facebook ID number (#2 to #10) where highlighted in the URL. Of note, these do not violate the privacy controls set by a Facebook account user.

	Facebook URL-Based Search Strings
1	Find an account using an email address: https://www.facebook.com/public?query=emailname@host.com&nomc=0
